

### DOWNTOWN YWCA - KNOXVILLE, KNOX COUNTY, TN

The YWCA of Knoxville has a long and honorable history of serving women and their families, and of working hard to end racism in our community. The facility built in 1925 was in great need of modernization and upgrades to meet current safety codes and accommodate more guests.

The Community Design Center with the help of volunteer professional Christina Geros, was asked to review the YWCA's needs and see if their program could be accommodated in the existing building. These plans will be used to help fundraising for the multi-million dollar renovation.
